

### Data sheet

| Properties         | TDS Specification           | CS-POF                                    |
|--------------------|-----------------------------|-------------------------------------------|
| Appearance         | White Tasteless & Non-smell | White Powder                              |
| Water, %           | 2.0 max                     | 2.5 max                                   |
| Calcium Content, % | 6.4 - 6.8                   | 6.8 - 7.4                                 |
| Melting Point, °C  | 148 - 156                   | 148 - 160                                 |
| Particle Size      | More than 99%               | More than 99% (Fineness through 325 mesh) |
| Lead, ppm          | 5 max                       | 5 max                                     |
| Zinc, ppm          | 100 max                     | 20 max                                    |
| Cadmium, ppm       | 20 max                      | 3.0 max                                   |
| Soluble Salts, %   | 1.0 max                     | 1.0 max                                   |

**Its Origin is Malaysia**
